Bike Shop Mechanic & Sales

Position Location: Moab

This position is primarily spent working on different types of bicycles in the back of the shop. Technical bicycle mechanical skills are required and used simultaneously with helping customers on the floor when necessary. Understanding how to sell is a vital part of this position. The customer is first; repair second.

Job Description:

This position is a vital part of the daily operations of the bike shop. The mechanic and sales person is responsible for understanding the framework of selling. Working in this position requires understanding of the changing environment, people skills, and a professional image at all times. When arriving at work, the mechanic will assist the General Manager or Assistant Manager in opening duties as well as other duties that may need to be addressed prior to the opening of the store. Throughout the day, the mechanic will help customers with technical bicycle questions, discuss current trends in the industry, fix any type of bike problem that is technically possible, and sell new gear and accessories to customers. Occasionally the mechanic will talk to customers about the different tours offered by Escape. Knowing the tours we offer is required.

Application:

All candidates must be U.S. citizens, great with people, drug-free, and must have an interest/appreciation for the outdoors.
