DEATH VALLEY & RED ROCK

ROAD BIKE TOUR

 **Road Biking**  **Hiking**

 Families with Older Kids
Private Tours and Custom Tours
Solos, Couples & Friends

 Departure: Las Vegas, NV

 Tour Offered: Jan, Feb, Mar, Apr, Oct, Nov

 Departs On: Monday

 Duration: 5 Days

 Lodging: First-Class Camping & Casual Inns or Casual Inns

 Fitness Level: 2-4

 Elevation Range: 0 - 5,000 ft.

Despite its rather foreboding name, Death Valley represents a stellar trekking destination. Hikers and bikers, climbers to rock hounds come to marvel at Spring's astounding wildflower blooms and often return to enjoy the mild temperatures of fall and winter. Outdoors people will relish 3,000-square miles of headspace, while cyclists find enviable elbowroom afforded by 350-miles of road and trails. (A full 91% of Death Valley is designated wilderness.

Stopping to visit historic sites, we cycle across the big valley floor. Most sites are accessed by 1930s-era Civilian Conservation Corps (CCC) roads. Almost immediately we come to appreciate a very subtle legacy of the CCC: the bygone wisdom seen in roads built to respect, rather than conquer the landscape

We navigate around sunbaked foothills, knolls, and stacks of boulders etched in yellow clay, rose and tan. A long time ago, these fantastic landscape features served as the backdrop for the first Star Wars film, Death Valley standing in for the planet Tatooine.

Each day in this storied place—contemplating 20-mule team wagons, Death Valley Scotty, the lost 49ers—you wake up to an unfettered horizon. The evenings are given over to serious unwinding: watching the two-mile high Panamint Mountains transition from shades of cool blue to a deep, purple bruise as the evening light drops away. In the other direction, the Amargosa range to the east is radiant, bathed in bronze tones. When you experience these lands by road bike, led by people who have a deep connection to Red Rock and Death Valley, you'll quickly learn this is not a place to be endured, but rather a world-class outdoor recreation destination.

THE ESCAPE ADVENTURES EXPERIENCE

For over 30 years, the hallmark of an Escape Adventures tour is personalized, hands-on service, before, during, and after each trip.

OUR PEOPLE

Our Trip Leaders are the best in the business. Trained personally by the owners, our WFR certified Leaders understand the areas you ride in and prioritize group safety.

OUR COMMITMENT

We don't just preach environmental awareness, we live it. We recycle 90% of our waste and run our LEED Platinum facilities with solar and wind power. Additionally, our facilities are net zero energy (we produce more energy than we consume) which makes us the only commercial outfitter in the world who is net positive energy.

OUR FOOD

Our Leaders prepare meals on the trip with an emphasis on fresh, local and organic foods, ensuring you have the fuel you need to ride, and a delicious meal at the same time.

OUR SUPPORT VEHICLES

We provide a support van and trailer for every 9 guests on all of our trips so you can count on us to be there when you need us.

DAY 1 | Dante's View

After meeting in Las Vegas we'll shuttle 3-hours to Death Valley National Park. Our first ride starts at the "top" of Death Valley: Dante's View. Perched high atop the black mountains at 5500 feet, Dante's View presents a remarkable rendering of the land below. Badwater Basin, the lowest, driest point in North America unfurls at your feet, while in the distance, Telescope Peak rises 11,331 feet (3455 m). This contrast creates the greatest topographic relief in the contiguous U.S. We enjoy lunch at the peak before taking off on our scenic ride down the mountain. Time permitting; we will continue our adventure with an exciting hike descending from Zabriskie Point down through Eagle Canyon.

Today's ride takes us to Artist's Drive. Aprons of pink, green, purple, brown, and black rock debris drape across the mountain front providing some of the most scenic evidence of Death Valley volcanic history. We'll skip over the first section of Artist's Drive– it climbs over 1000ft in just 3 miles– and instead ride from the peak of the U-shaped drive onward. We juggle counting colors with watching the road as there are many turns on this panoramic route.

These are the most photographed dunes in the world, so get your cameras ready for an amazing sight! After our exploration, we hop in the shuttle van for a ride to the top of Daylight Pass. Our ride will take us on a gradual descent to the famed ghost town of Rhyolite. With a little imagination the sights there will send shivers down your spine. After the ride, we'll return to the Las Vegas area to spend our final night in the Red Rock Canyon Conservation Area.

HOW TO PREPARE

ROAD BIKING

For optimal physical preparation, we recommend that you ride at least several hours per week during the month preceding the tour. During the tour you will be on your bike every day, and we can assure you that an unprepared bottom is a sore one! If you can't ride your bike, or don't own one, take a spin class at your local gym a few times a week.

HIKING

To prepare for the tour, we recommend that you hike, jog or run at least several hours per week during the month preceding the tour. Walk/run in the shoes and socks you are bringing on the trip. This will help prevent blisters and sore feet.
